

KuWiH Learn'n play table

Not just a table,
but a diverse Learn
play table!

KuWiH

Perfect retreat and play area for children • in restaurants • in hotels • in banks • in medical practices
• in car dealerships • in furniture stores • in nurseries • in schools

KuWiH Learn'n play table

The KuWiH learn'n play table is a versatile learning table for nurseries and elementary school.

Made from natural, untreated birch plywood, which gives off a pleasant wood aroma and thus invites children to play and learn creatively.

On the one hand, the learning play table is a "normal" table, but if you turn the table

top over, there are 4 spaces with recessed light panels for writing, painting, drawing and much more.

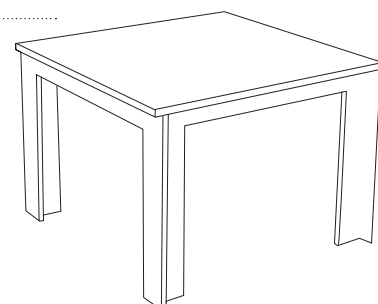

The children are delighted with the possibilities it offers them!

.....
Dimensions:

Length: 29,53 in

Width: 29,53 in

Height: 19,29 in

One becomes two

Can be used on both sides! Simply turn the table top: this results in a table top with 4 recessed light panels that invite to draw, write or practise arithmetic with the illuminated pen.

There are no limits to creativity!

◆ Four light board pens included.
